

Simple 123 - Spider

5.2

The 123 Spider system is a cost effective method of providing power and control for lighting installations in industrial, commercial and retail buildings.

The 123 Spider marshalling box is designed for ease of installation: mains input is connected using the spacious wiring compartment; control inputs and outputs are pluggable using industry standard connectors.

The marshalling box has 10 luminaire outputs, which can be con-figured in a 2x5 or 1x10 format.

Supply Voltage: 220-240 Volts AC 50 Hz
Terminal Capacity: 2.5mm²
Material: Flame retardant nylon and ABS

Type: Class 2
Temperature: -10°C to 35°C
Conformity: LVD-73/23/EEC
